Sometimes the best support is talking to someone who knows what it’s like to live with cystic fibrosis.
The Cystic Fibrosis Foundation’s one-to-one peer mentoring program connects adults (18 and older) living with CF with peer mentors who can share their own CF experiences. To learn more, visit www.cff.org/peer.

Connect with someone living with CF.
Although no two people with CF are the same, they do face similar challenges. Talk via phone or videoconference to someone who understands firsthand what it’s like to live with CF and is willing to share his or her experiences on topics such as: transitioning to college, dating and relationships, starting or stopping work, getting a G-tube, considering a lung transplant and more.
